They look amazing

Can you explain to me how the electro plating is done for the bracelets?

What's the base metal? And also do you first plate it in nickel and then gold?

We use real 18k gold to electroplate onto real silver alloy. This way, the colour won't fade and the weight is controlled. We are the only team doing it this way.

The bracelets are made of silver?

GUCCI Bamboo 1947 Jumbo GG Mini Bag

Instantly recognizable emblems of the brand, logos enrich designs in new and unexpected ways. Behind every logo lies the tradition and value of the House, an everlasting medium one can wear again and again. Following the idea of constant change and experimentation, different iterations of the logo have been presented each collection. The jumbo GG, a new, maximalist version of the historic monogram, animates a selection of ready-to-wear and accessories for the Aria collection like this mini bag.

I chose this bag because it has a very interesting design. The leather is soft and pleasant. The bag is roomy enough. The handbag is adorable! Delivery, quality - everything is on top.

Today I got my order. I was very satisfied, although I was a little worried about buying 1:1 but it's very high quality copy.
