*WHY ARE OUR WATCHES SO CHEAP?

We are the foundry of Swiss luxury watch brands.
Due to COVID-19, the business of our factory is not
as good as before,
resulting in a large backlog of inventory.
We had to sell at the lowest price to cover the loss.

SINCE 1963

Daytona

In 1963, Rolex released their first Cosmograph watch, called the reference 6239. Now, we know this watch as the Cosmograph Daytona. This particular model was a big step in shaping the Daytona watch we recognize today, especially because it had a special tachymeter scale on the metal ring around the face.

I recommend that you make the payment on our website. The site's attribute selector and address autofill are very convenient to use. If you prefer to use PayPal for payment, I can send you a payment link. Please inform me in advance of the color you need. I already have the material and size (16) information.

Additionally, our website offers a 'buy 2+ items, get 20% off' promotion. I still recommend you use a credit card for payment, as it is faster. If you choose to use PayPal and also want to purchase multiple items, I can create an order for you, list the items, and send you the discounted price.

What is a Super Clone Watch?

Super clones must be works from the world's top factories. For example:Clean, Noob, AR, VS, BT factories.Other websites only indicate that it is a super clone but not which factory it is from, they are all fake super clones  
All workmanship is top notch. Whether it is quality, diameter, thickness, luminous function, waterproof function, the quality can be interchanged with the genuine counter

Why Buy Super Clone Watch?

I conclude that there are mainly several types of people who buy it.

The first type: pure brand lovers, but the economic ability is not enough for him to buy.

The second type: I myself have financial strength, but I am also relatively rational. I think it is a waste of money to spend tens of thousands of dollars to buy a piece of luxury that is not often used. Buy dozens of different styles of super clone. One is collection, and the other is that you can change every day without repeating the same.

The third type: Rich man who drive luxury cars. Although they are very rich, they will never waste money. They spend money for a purpose. The reason why they are rich man is because they can invest. When you see rich man driving luxury cars, even if they are wearing street stalls, do you dare to say that they are cheap?  
Because their social status has been achieved, but this kind of rich man will also choose super clone. Most of the purposes of buying this kind of watch are dating, parties, or matching their own luxury cars. In fact, I said so much, just want to tell everyone that you understand what you buy, and I am also responsible for you. And  
I guarantee to all customers: I only do the best source of goods in the industry, I will never ask for extravagant prices, I only earn the little profit I should earn! !

SOLID 904L STAINLESS STEEL

Our Swiss grade Rolex watches are made of 904L steel, that is more costly and complicated to produce because it's very hard, but it's worth it since it is more rust and corrosion-resistant than other steels, and hold the polish much better than the 316L steel.

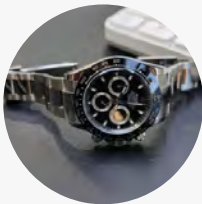

SCRATCH-PROOF SAPPHIRE CRYSTAL

The advantage of sapphire glass that is used in our Rolex Replica designer Watches over regular glass is that the sapphire crystal is much harder, and thus very hard to scratch. Cheap clones use mineral glass, which is 10 times more fragile than sapphire. Sapphire crystal measures 9 on the Mohs mineral hardness scale, followed by Diamonds on 10.

IP65 STANDARD

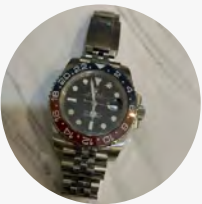

Our high-quality Rolex models feature a double core silicone "O" Rings, made of solid tube rubber create an airtight seal, providing decent IP65 water resistance (rain/splash proof).

Description

An icon since the 1960s, the Love bracelet is a timeless bangle secured by a screw-on closure. Symbolizing love and commitment, it's a treasured piece often exchanged by couples for a permanent feeling of devotion.

Luxurious Shine, Enduring Elegance:

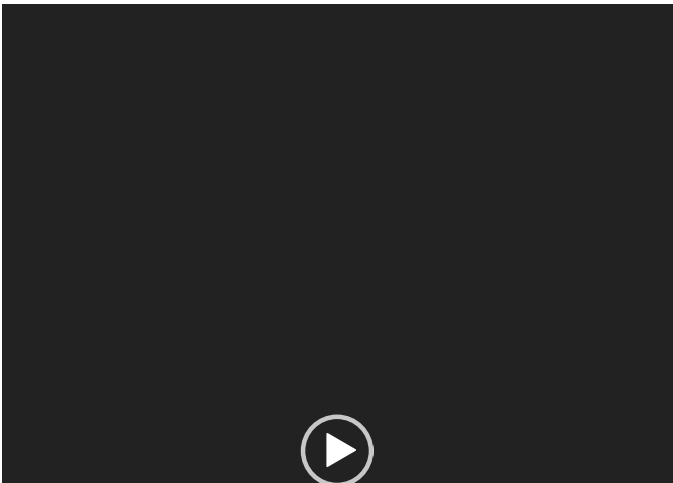

- Indulge in timeless beauty with this exquisite piece crafted from genuine gold vermeil. This low-volume gold alloy ensures a luxurious feel without compromising on weight. Unlike gold plating, vermeil offers a thicker layer of 18k gold for long-lasting shine that resists tarnish.
- Hypoallergenic and remarkably comfortable for everyday wear, this piece is designed to be your constant companion.
- The radiant cubic zirconia gemstone adds a dazzling brilliance, virtually indistinguishable from a diamond at a fraction of the cost.
- Presented in our stunning identical brand box, this treasure is perfect for gifting or pampering yourself.

Everyday Brilliance, Effortless Care:

- Unleash your inner radiance with this stunning piece crafted from 100% genuine gold vermeil. The durable 18k gold layer offers superior resistance to tarnishing compared to gold-plated jewelry, making it perfect for everyday wear - from work to the weekend. Wear it to the beach or the pool without worry!
- Maintaining its vibrant beauty is effortless. Simply avoid harsh chemicals like bleach or detergents. After each wear, a gentle wipe with a soft, dry cloth removes any residue. Store it safely in our beautiful brand box, ensuring its lasting beauty for years to come.

#### Mariel&Co: The Story of Us

Mariel & Co. is more than just a jewelry brand; it's a culmination of passion, heritage, and innovation. Founded by Julien, a scion of a renowned New York jeweler family, Mariel & Co. embodies his lifelong dedication to jewelry making. Julien's journey began under the tutelage of his family, where his exceptional talent blossomed at a young age.

By 15, he was already a sought-after jeweler, crafting exquisite custom pieces. Driven by a deep admiration for Cartier's design and legacy, Julien embarked on a new chapter in Paris, the heart of Haute Joaillerie. In the City of Lights, Julien honed his skills at Cartier's prestigious workshop, quickly establishing himself as a meticulous quality control officer amidst the world's finest artisans. Destiny intervened here, leading him to Yu Zhen (Mariel), a brilliant Chinese student at the IFM Paris Fashion Design Academy. Their love story culminated in marriage in 2018, and a decision to move to China to manage Yu Zhen's family business – a company specializing in manufacturing luxury handbags and shoes based on the designs of world-famous brands.

While the family company flourished under their leadership, Julien's heart yearned for his true calling – jewelry design. Thus, Mariel & Co. was born.

Why are our watches so cheap?

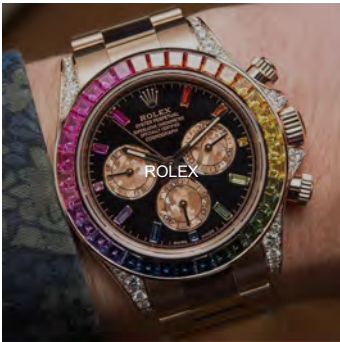

Luxury watches are a one-stop shop for all your Rolex watch needs, while other brands such as Patek Philippe, Audemars Piguet, Cartier, Omega, etc., luxury watches are designed to make shopping more enjoyable and help you make the most of it. Our staff consists of independent analysts who are passionate about luxury watch brands. We are watch lovers ourselves and love to talk to customers who are interested in our favorite topics. If you can't find a product, you can contact us and we can help you find the perfect watch for your style. Our factory has all watches. We are in this industry because of our love for watches.

**SOLID 904L STAINLESS STEEL**

Our Swiss grade Rolex watches are made of 904L steel, that is more costly and complicated to produce because it's very hard, but it's worth it since it is more rust and corrosion-resistant than other steels, and hold the polish much better than the 316L steel.

**SCRATCH-PROOF SAPPHIRE CRYSTAL**

The advantage of sapphire glass that is used in our Rolex Replica designer Watches over regular glass is that the sapphire crystal is much harder, and thus very hard to scratch. Cheap clones use mineral glass, which is 10 times more fragile than sapphire. Sapphire crystal measures 9 on the Mohs mineral hardness scale, followed by Diamonds on 10.

**IP65 STANDARD**

Our high-quality Rolex models feature a double core silicone "O" Rings, made of solid tube rubber create an airtight seal, providing decent IP65 water resistance (rain/splash proof)

SOLID 904L STAINLESS STEEL

Our Swiss grade Rolex watches are made of 904L steel, that is more costly and complicated to produce because it's very hard, but it's worth it since it is more rust and corrosion-resistant than other steels, and hold the polish much better than the 316L steel.

SCRATCH-PROOF SAPPHIRE CRYSTAL

The advantage of sapphire glass that is used in our Rolex Replica designer Watches over regular glass is that the sapphire crystal is much harder, and thus very hard to scratch. Cheap clones use mineral glass, which is 10 times more fragile than sapphire. Sapphire crystal measures 9 on the Mohs mineral hardness scale, followed by Diamonds on 10.

IP65 STANDARD

Our high-quality Rolex models feature a double core silicone "O" Rings, made of solid tube rubber create an airtight seal, providing decent IP65 water resistance (rain/splash proof)
